

**A universal degreasing, cleaning and descaling agent for mechanical parts.
Reserved for professional use.**

PERFORMANCES

- R 44** rapidly and effectively cleans mechanical parts.
- R 44** dissolves resinous, oily and greasy deposits, and scale.
- R 44** is suitable for risk-free removal of dust produced by brake pads and shoes.
- R 44** is completely safe for cleaning electrical contacts and terminals.
- R 44** does not leave any residue.

USES

INSTRUCTIONS FOR USE

Lay some paper or cloths under the parts to be treated, and then spray **R 44** onto the surfaces to be cleaned.

Let the dissolved soiling drain off. Scrub stubborn parts using a brush. Once the product has evaporated, the parts are clean and free from soiling.

R44 comes packed in a 5-litre metal canister.

PRECAUTIONS FOR USE

Contains a petroleum distillate.

Pressurised container.

Protect from sunlight, and do not expose to temperatures above 50°C.

Do not pierce or burn, even after use.

Do not spray toward a flame or incandescent object.

Consult the safety data sheet, available on request for professionals.

The aerosol cans must be used within one year of delivery for optimum use; returns will not be accepted after this time.

The characteristics are given purely for information and are consistent with our current production standards. IGOL reserves the right to modify them, in order to pass on technical developments to its customers. Before using this product, you should consult the instructions for use and the environmental impact shown on the technical and safety data sheets. The information given above is based on the current state of our knowledge of the product in question. The product user should take all relevant precautions relating to its use. Under no circumstances may IGOL be held liable for damages resulting from misuse.
